Occupational health textbook pdf online book download pdf

I'm not robot!

the Occupational Health and Safety Books PDF to boost your career in occupational health and safety. This is most recommended book for HSE professionals to help them to improve health and safety culture at their workplace. The PDF book consists of total 13 elements separated in 2 parts, the first part is having 5 elements and 8 elements in 2nd part. The book Introduction to Occupational Health and Safety PDF is an ideal solution to successfully clear NEBOSH International General Certificate and NEBOSH National General Certificate exams as well. The PDF is one of the best occupational health and safety books to download. Total number of pages in the PDF: Introduction to Occupational Health and Safety Part I ¢ÃÂÂ 316 Introduction to Occupational Health and Safety Part II ¢ÃÂÂ 430 Introduction to Occupational Health and Safety PDF Elements: Part I Element 1: Foundations in health and safety Element 2: Health and safety management systems ¢ÃÂÂ Plan Element 3: Health and safety management systems ¢ÃÂÂ Do Element 4: Health and safety management systems ¢ÃÂÂ Check Element 5: Health and safety management systems ¢ÃÂÂ Act Part II Element 1: Workplace hazards and risk control Element 2: Transport hazards and risk control Element 3: Musculoskeletal hazards and risk control Element 4: Work equipment hazards and risk control Element 5: Electrical safety Element 6: Fire safety Element 7: Chemical and biological health hazards and risk control Element 8: Physical and psychological health hazards and risk control Table of Content Part I ELEMENT1 ¢ÃÂÂ Foundations in health and safety 7 1.1 The scope and nature of occupational health and safety 8 1.1.1 The multi-disciplinary nature of health and safety; the barriers to good standards of health and safety 9 1.1.2 Some Meanings and distinctions 12 1.2 Moral, social and economic reasons for maintaining and promoting good standards of health and safety in the workplace 13 1.2.1 Moral reasons 13 1.2.2 Social reasons 17 1.2.3 Economic reasons 18 ohw srehto & review ? 297 5.2.3 Review at planned intervals 299 5.2.4 Evaluation of the improvement of improvement and the need for change 300 5.2.5 Review to be taken into consideration: 301 5.2.6 Conservation of the recordings of the management of management 314 5.2.7 performance reports With regard to health and safety 314 5.2.8 Insertion in action and development plans in the framework of a continuous improvement 315 Part II element 1 ã ¢ â € â "Risks in the workplace and control of risks 8 1.1 requirements on the subject of Health, 1.1 19 1.2 Violence at work 26 1.2.1 Risk factors relating to violence at work 28 1.2.2 adequate control measures to reduce the risks deriving from violence at work 30 1.3 improper use of substances at work 34 1.3.1 Types of substances used improperly at work 34 1.3.2 risks for health and safety deriving from the improper use of substances at work 36 1.3.3 control measures to reduce the risks deriving from improper use of substances at work 3 1.4 Safety of people's movements in the workplace 41 1.4.1 dangers in the workplace 41 1.4.2 Measures to control the safety of people's movement in the workplace 44 1.5 Work in height 49 1.5.1 Examples work activities involving a risk of injury in the event of a fall from a height and the extent of such injuries 49 49 Basic hazards and factors affecting hazards arising from work at a height 50 1.5.3 Methods of avoiding work at a height 55 1.5.4 Main precautions needed to prevent falls and falls 56 1.5.5 Emergency Relief 58 1.5.6 Provision of equipment, training, instructions and other measures to minimize distance and consequences of a fall 61 1.5.7 Head protection 64 1.5.8 Safe working practices for common forms of access equipment 65 1.5.9 Inspection of access equipment 72 1.6 from the risks associated with works of a temporary nature 75 1.6.2 Main control measures relating to the management of works of a temporary nature 75 Element 2 ³ ÂÂ Transport and risk control hazards 78 2.1 Road vehicle safety at work 80 2.1.1 Hazards and factors affecting the level of risk from the workplace 82 2.1.2 Control measures for the safety of transport operations at the workplace 93 2.2 Guide at work 112 2 2.2.1 Work-related road safety management 113 2.2.2 Risk assessment 2.2 Risks 125 2.2.4 Control measures to reduce work-related driving risks 130 Element 3 Ã¬ÂÂMusculoskeletal hazards and risk control 135 3.1 Work-related upper limb disorders 136 3.1.1 Significance of work-related musculoskeletal diseases and upper limb disorders 137 3.1.2 Examples of repetitive operations 140 3.1.3 Adaptation of the workplace to the individual needs of workers 142 3.1 Harmful effects of poorly designed tasks and workers 155 3.2.2 Risk assessment for manual handling 153 3.2.3 Means to avoid or minimize risks associated with manual handling 155 3.2.4 Efficient movement principles for manual lifting of loads to reduce the risk of musculoskeletal disorders 156 3.1.6 Control measures 148 3.2 Dangers and Control Measures Related to Manual Handling 149 3.2.1 Common Types of Manual Handling 156 3.3 57 3.4 Feed Load Supply Equipment 160 Item 4 Â"Hazards and risk controlÂ" of work equipment 171 4.1 General requirements for work equipment 172 4.1.1 Types of work equipment 172 4.1.2 Adequacy of equipment 175 4.1.3 Prevention of access to hazardous parts of machines 177 4.1.4 Necessity to limit use maintenance of equipment presenting specific risks and persons at risk 179 4.1.6 Necessity maintenance and safety of equipment 4.1.7 Importance of operating and emergency controls, stability, lighting, markings and warnings, working space clear and free 185 4.1.8 Responsibility users 191 4.2 Risks and control of hand-held tools 192 4.2.1 Risks and misuse of hand-held tools, whether motorized or not; Requirements for safe use, status and fitness alluse, lâfit alluse, lâfit allâuse in environment (e.g. flammable atmosphere) 192 4.2.2 Hazards of portable power tools 193 4.3 Mechanical and non-mechanical hazards of machines 199 4.3.1 Main mechanical and other hazards identified in BS EN ISO 12 100-1 and possible damage 199 4.3.2 Hazards presented by various equipment 217 5.1 Principles, hazards and risks related to use ofelectrical energy during work 21 5.1.1 Basic current flow circuits: relationship between voltage, current and resistance 219 5.1.2 Risks, risks and hazards related to â Use of electrical energy 228 5.2 Control measures when working with electrical installations or using an ââElectrical equipment in all Workplace Conditions 241 5.2.1 Control measures 243 Element 6 Fire safety 265 6.1 Fire initiation, classification and propagationFire principles 26 7 6.1.1 Fire principles 267 6.1.2 Classification of âA 270 6.1.4 6.1.4 Causes of fire and consequences 273 6.2 Fire risk assessment 277 6.2.1 Reasons to carry out an assessment of the risks of fire 277 6.2.2 factors to be taken into consideration for the purposes of assessment 278 6.3.3 Consideration of the Temporary jobs and modifications to jobs 283 6.3 Fire prevention and prevention of the propagation of the fire 286 6.3.1 Control measures to minimize the risks of fire in the workplace 286 6.3.2 storage Flatable liquids 6.3.3 Awareness of the structural measures aimed at preventing the propagation of fire and smoking: proprietary of the common building materials; Protection of openings and voids 294 6.3.4 Employment of adequate electrical equipment in flammable atmosphere 298 6.4 Fire alarm system and fire -fighting devices 299 6.4.1 Revelation, signaling and fire fighting equipment 299 6.5 Evacuation a job 309 6.5.1 Escapy means: distances, stairs, passages, doors, emergency lighting, exit and directional signs, meeting points 309 6.5.2 Emergency evacuation procedures 312 6.5.3 Role and appointment of firefighters 313 6.5.4 Fire exercises ; nominal appeal; Provisions for people with disabilities 314 6.5.5 Construction plans including the recording of emergency exits 317 Element 7 â «Chemical and biological dangers to health and risk control 320 7.1 forms, classification and health risks deriving from dangerous substances 322 7.1.1 forms of chemical agents: 322 7.1.2 forms of biological agents 323 7.1.3 Main classification of substances dangerous for health 324 7.1.4 Difference between acute and chronic health effects 328 7.2 Evaluation 7.2.2 factors to be taken in consideration in the assessment of health risks 337 7.2.3 Source of information 339 7.2.4 role and limits of control of dangerous substances 342 7.3 limits of Purpose of occupational exposure limits 344 7.3.2 Long term and short term limits 348 7.3.3 Significance of time weighted averages 349 7.3.4 Limitations of exposure limits 349 7.3.5 Application of relevant limits 350 7.3.6 Comparison of measurements to exposure limits established by competent national authorities or internationally recognised standards. 351 7.4 Control measures 352 7.4.2 The principles of good practice for the control of exposure to substances hazardous to health 352 7.5 Specific agents 371 7.5.1 Health risks and controls associated with asbestos 371 7.5.2 Managing asbestos in buildings 374 7.5.3 Health risks and controls associated with other specific agents: blood borne viruses, carbon monoxide, cement, legionella, leptospira, silica, wood dust; workplace circumstances in which they might be present. 382 7.6 Safe handling and storage of waste 388 7.6.1 Basic environmental issues relating to safe handling and storage of waste 388 Element 8 ¢ÃÂÂ Physical and psychological health hazards and risk control 394 8.1 Noise 395 8.1.1 The physical and psychological effects on hearing of exposure to noise 396 8.1.2 The meaning of terms commonly used in the measurement of sound 398 8.1.3 The need for assessment of exposure 399 8.1.4 Basic Noise Control Measures 401 8.1.5 Role of health surveillance 406 8.1.6 Occupations with potential noise exposure problems 409 8.2 Vibration 410 8.2.1 The effects on the body of exposure to vibration 411 8.2.2 The need for assessment of exposure 412 8.2.3 Basic vibration control measures 415 8.2.4 Role of health surveillance 416 8.3 Radiation 417 8.3.1 The types of, and differences between, non-ionising and ionising radiation (including radon) and their health effects 417 8.3.2 Typical occupational sources of non-ionising and ionising radiation 419 8.3.3 The basic means of controlling exposures to non-ionising and ionising radiation 420 8.3.4 Radiation Protection Strategy 424 8.3.5 Role of radiation monitoring and Health 425 8.4 Stress 427 8.4.1 Meaning of “work-related stress” 427 8.4.2 Causes, effects and control measures 429Â 429
